7/12/75

Dear Mr. Smith,

I do remember your call.

However, as I get more deeply into more aspects I can't engage in as much correspondence not directly related to the work I try to do. There is much I can't get to.

Can you add anything to the Hank Killum report, that he saw a shot fired from the Dal-Tex bldg window?

Or to what you've already said about the men jumping off the train as you were going toward the Trade Mart?

My problem with the latter is that there was no train in a position from which shots could have been fired when they were fired, from the available evidence.

This does not mean there was none. Only no known evidence to support it.

Thanks for your kind comments.

I hope your recovery is speedy and complete.

Sincerely,

Harold Weisberg
